

REMARKS

Claims 1-18 were allowed, which the undersigned gratefully acknowledges. Pursuant to a careful reading of the pending claims, very minor amendments have been made thereto to even further improve the readability and grammatical nature of the claims. These are non-narrowing amendments that do not change the scope of the claims.

Furthermore, the undersigned has amended independent claims 1 and 12 pursuant to the Examiner's recommendation to fully recite, at the beginning of each claim, the words corresponding to the acronym "EIRP".

SPECIFICATION

Pursuant to a careful re-reading of the specification, very minor amendments have been made that are believed to even further improve the readability of the specification. These are not substantive changes, but instead relate merely to grammatical changes. It is respectfully requested that the minor amendments to the specification made herein be entered by the Examiner.

CONCLUSION

It is believed that all of the stated grounds of rejection have been properly traversed, accommodated, or rendered moot. It is believed that a full and complete response has been made to the outstanding Office Action and the present application is in condition for allowance. Thus, prompt and favorable consideration of this amendment is respectfully requested. If the Examiner believes that personal

communication will expedite prosecution of this application, the Examiner is invited to telephone the undersigned at (248) 641-1600.

Respectfully submitted,

Dated: May 23, 2008
